

‘Light Port’

There are a number of exciting new events coming to Southport in 2026! The first event of the year is ‘Light Port’!

Southport Learning Partnership, which is run by the Headteachers from all our primary and secondary schools across Southport, are keen to get the children involved in the forthcoming events.

A couple of representatives from each of our schools will be able to meet Lucid, the team responsible for Light Port and take part in the press launch and then return to school to tell the children about it.

We will also have a window of light activity set up in each of our classrooms on the theme ‘Rainbows’ in which one of our Rainbow Windows will be displayed in Southport Market. Look out for the St. Patrick’s school badge to find ours during the event.
